

LED Light HSN Classification Guide

How to classify common LED products correctly

Based on India ITC-HS product descriptions

Not every LED product falls under HSN 9405.

The correct HSN depends on whether the item is a light source, a finished lighting fitting, a sign, or a part.

A

Is it a standalone LED light source?

LED module

HSN **853951**

LED lamp / bulb

HSN **853952**

Use Chapter 85 when the product itself is the LED light source.

B

Is it a finished luminaire / lighting fitting / sign?

Ceiling or wall LED fitting

HSN **940511**

Table / desk / bedside / floor LED lamp

HSN **940521**

LED lighting strings

HSN **940531**

Photovoltaic LED fitting

HSN **940541**

Other LED lighting fittings

HSN **940542**

Illuminated sign / nameplate

HSN **940561**

Use Chapter 94 for finished luminaires, lighting fittings, and illuminated signs.

Common Parts

Parts of glass
HSN **940591**

Parts of plastics
HSN **940592**

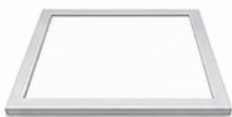

Other parts
HSN **940599**

Quick Examples

LED bulb
→ **853952**

LED panel light
→ **940511** or **940542**
depending on product form

LED table lamp
→ **940521**

LED signboard
→ **940561**

LED driver
→ classify separately by exact product description

Important classification note

Classify the exact product form first. Do not place every LED product under HSN 9405. Verify the full product description and latest official tariff entry before invoicing or filing.
